

## Playback Recording Guide

TVI DVR MODELS

## Playback

Playback the record files of a specific channel in the live view menu. Channel switch is supported.

### Instant playback by channel

1. Choose a channel under live view.
2. Click on  in the shortcut operation menu.

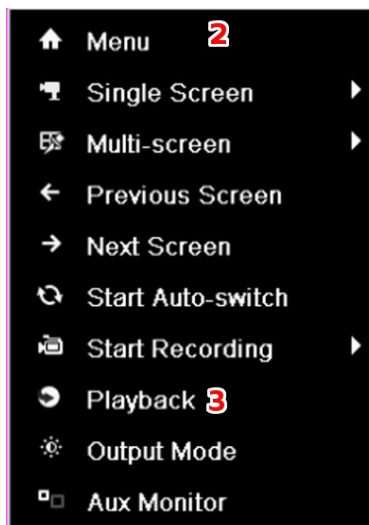

**Note:** Only files recorded during the past five minutes on this channel will be played back.

Instant Playback Interface

### Playback by channel

1. Enter the **Playback** menu.
2. Right click on a **channel** in live view mode. The following menu will pop up.

3. Select **Playback** from the menu.

- Click on **Play** to play back recorded files of the channel under single-screen live view. Under multi-screen live view, record files of the selected channel will be played back.

### Playback Management

- The Toolbar in the bottom part of Playback interface can be used to control the playing process.
- Click on the **Check boxes** of the channel or channels if you want to switch playback.
